

# HOMES OR FACTORIES

The Newark Housing Authority would like to have a 32-block area (see map below) declared "blighted."

Then it would clear the homes and replace them with factories, warehouses, and other light industry.

PROPOSED  
FACTORY  
AREA

## Some facts - -

1. If enough residents oppose the area through petitions and statements, the factories can be defeated.
2. The public hearing when everyone will have a chance to speak will be on Thursday, June 29, at 7 p.m. in City Hall, Broad Street.
3. Home owners and tenants will all be affected. About 10,000 persons (including 2,000 school-age children) would have to move.
4. The people who live in Clinton Hill were not asked whether they want this plan. It was dreamed up by real estate developers, housing officials, and others, without respect for the citizens.
5. People living on streets outside the area will also be hurt. Overcrowding in housing will grow. School enrollments will go up. Heavy trucks will clog the streets. A neighborhood will be destroyed.

## The Factories Can Be Stopped!

SAVE OUR HOMES!

SAVE OUR HOMES!

# PUBLIC MEETING

282 Peshine Ave. Philemon Baptist Church

FRIDAY - JUNE 9TH - 8 P.M.

All Welcome
